EASY TO LEARN, EASY TO OPERATE

Operators can be guided through transactions with prompting and pop-up windows which insure that you offer the right choices for each product. Other features include:

- Easy to setup and configure item descriptions and prices through Menu Setup function.

- Each product can be programmed to have up to four sizes/prices you can select the appropriate size/price through a pop-up window.

- Flexible table layout allows you to change your tables into any sizes, shapes or locations.

- Happy hours feature allows the price to be automatically shifted during a certain period of time .

- Selectable job list printing allows waiters to control the printing sequence of your entrée, main course and dessert. Now your customer will never complain their dishes are arriving too early or too late.

- Each product can be associated to have a list of condiments and cooking instructions to suit even the pickiest customers.

- Powerful reservation features with sit number reminder gives you the most flexibility to allocate your sits to your customers.

"WINDOW SITS FOR NEXT MONDAY? NOT A PROBLEM!"

HIGH STANDARD SERVICES

- On-site training.

- 24 hours a day 7days a week on-site support

- 30 days money back guarantee. (software only)

- Optional yearly service contract available

EXCELLENT SECURITY

- User manager function ensures your employee to access only their own authorized functions.

- Each transaction is monitored by an enforced by an password or swipe card entry.

- Void, discount and cash payout operations are recorded in electronic reports for comprehensive audit tracking.

PHONE ORDER MODULE

Phone order module records and tracks your customer's details, delivery due time and driver's assignments. A powerful PC Caller ID machine can support up to eight phone lines at any instance. Digital Data Assist also provide you with a strong customer database which maintains all your customer details as well as theirs orders and habits so when next time they ring up, your system will automatically pop-up his/her details and reduces your time to input the same details again and again

We also keeps track of your delivery receivable to ensure you have a fully control of your cash flow.

Caller ID

MULTI-LANGUAGE MENU and PRINTING

Digital Data Assist supports programming of two languages per product (English, Italian, Greek Chinese, Thai and many others). Therefore, you can now print your own language in kitchen. The language switch button on function keyboard allows you to change the display language any moment you wish.

POWERFUL BACK OFFICE FUNCTIONS

Digital Data Assist slashes the time you spend stocktaking, balancing tills, recording sales transactions, transferring stock and changing prices. Extensive reporting gives an instant view of your business.

We view training as one of the most important aspects. Although we will always be there to support you 24 hours a day 7 days a week, it is crucial that you understand our product and how it can help your business. From stock control to managing your debtors and creditors, we offer extensive and comprehensive training to your management as well as your floor staff.
